Approved by: Shannon Burke

**Purpose:** Sets out requirements individuals must meet to receive a stipend for coaching a NAPTA Troubleshooting Skills Competition team that advances to the Championship Competition.

**Stipend:** A fixed amount will be paid to eligible coaches of record whose teams advance to the Championship Competition. Only coaches from NAPTA-member colleges are eligible to receive the stipend. The stipend amount will be paid upon completion of the competition, after criteria for receipt has been reviewed and approved. The stipend amount may fluctuate from year to year based on NAPTA's budget, the TSC format, and NAPTA operating procedures. If an instructor coaches multiple teams, and more than one team advances to the Championship Competition, the coach is only eligible to receive one stipend.

**Duties:** Each coach is responsible for the qualification, participation and conduct of all team members during the TSC, as follows:

- Team members shall participate fully in all assigned activities.
- Team members shall be present for the entire competition event.
- Coach and competitor surveys must be completed in full and returned to the event coordinator.
- Coaches must ensure all team members meet the Student Qualifications set out in the TSC Participation Guide.
- The TSC Code of Conduct must be followed at all times.

NAPTA may require additional criteria to be met in order to qualify a coach to receive the stipend.
